Great Basin Incident Commander Conference Call Agenda 2015	
Date: 9/3	Note taker: G. Dingman
GB MAC/GACC Coordinator: Agenda/Incident Commander Discussion Points: <u>Summarize the following in 4 min or less:</u> <ul style="list-style-type: none"> • Fire Size / % contained / # of people / Cost to date • Significant changes since the last 209 • BRIEF fire synopsis /Critical Incident Information (use Directional vs DIVS's) • Political Issues / Community Meetings • Closures / Evacuations / Public Safety Issues • Major Safety Concerns / Injuries / Accidents • Critical Resource Needs • Resources Available to Reassign/Share/Demob 	
Predictive Services:	<p>Near normal temperature/humidity levels for early September. Increasing southwest winds increase flow returns to the Great Basin and there is a concern that SW winds of 20-30 mph could affect our current large fires in Idaho by this afternoon. Fortunately, humidity should be coming up about 5-10% from yesterday's afternoon levels.</p> <p>These increasing SW winds are due to another low dropping in from the Pacific NW. By early Thursday it should bring clouds to our western areas, then occasional showers and isolated wet thunderstorms Thu-Sat. Lingering cool conditions thru the end of this coming weekend. Precipitation amounts in Central Idaho are expected to range from 0.35 to 0.75 inches during this 4-day stretch of cool, moist weather. A gradual return to near normal temperature/humidity by early next week, but no extreme heat or dryness is expected.</p>
GBCC Update:	7 fires / 6 acres 12,522 new acres on large fires –
1 Fire: Teepee Springs IC: Ourada	<ul style="list-style-type: none"> • Broyls 93102 / 25% some drop / • IC and management visiting to have new objectives. More point protection and • NE timber sale protection • Good progress on all areas. Flew over 100 hrs yesterday • N. of Salmon, wrapped historic cabin • Critical needs are Overhead positions • Nothing to release now – 4-5 days out • Closures: Salmon river is open to rafters. Road open to residence only • No meetings • Rain – not much but some of the fire • 13-14 mm debris flow, trapping 3 engines and Taskforce leader were stuck overnight.

Appendix 7

2 Fire: Eleven Mile IC: Martin with Whalen as the Deputy	<ul style="list-style-type: none"> • 10383 / 15% / 623 / 5.1M • Water shed is still threatened • Fire pushed line yesterday. Yankee creek and west crews made good progress. • No evacuations in place. Some roads still closed. • Rehab: working on opening Custer Motor way. Wind blew trees down and continue to clean up • Demobing units that are timing out • Ramp down on Engines/structure • Held ground on the West side • Fire did push on the East side with the SW winds • NE continues to be the side of concern with a spotty dirty burn and wx pushing the fires. • Critical needs: tapering off • Accident: vehicle accident – low speed Water tender and stump • WFDSS change to cost of incident
3 Fire: Rapid IC: Mark Ingram (T)	<ul style="list-style-type: none"> • Scooper and helicopter work the fire with good success • Did come off of the ridge but were able to hold it with the , west side the smjs made good progress, • Critical needs / Security 2 with closures • Injury: the bear incident - demobed employee home • Public meeting in the next day or so – wanting to get a good updated map to post for the public. • Sig changes: expecting less fire activity due to wx. Work on securing the line and tie in the
4 Fire: Cougar IC: Chris Bourgoine (T)	<ul style="list-style-type: none"> • No critical needs • Fire ops: mop up and monitoring and down sizing • 1237 acres / 96 pep / 5.0 M • No injuries • 100% by COB today • Keeping the community up to date with PIO • WX pattern is wet. • Releasing 2 crew, SLC helicopter T3
MAC Coordinator	Moving IHCs around the fires as they come back from R&R.
Date/Time of Next Call:	Tomorrow at 0730 Mountain.
